Mausoleums allow families to entomb their loved ones in crypts above ground, in a beautiful, private, and sheltered place.

A variety of two-crypt non-walk-in granite mausoleums are available, also three-plus-crypt granite mausoleums can be designed and customized with a variety of beautiful architectural options, in a variety of colors and with a variety of engraving options.

We can design and install preassembled or site constructed walk-in mausoleums. These designs range from very simple 3-crypt granite mausoleums to extremely large and elaborate multi-crypt mausoleums. A variety of granite colors and styles are available, and we have a diverse selection of bronze door styles and stained-glass windows to choose from. Both the interiors and exteriors of walk-in mausoleums may be engraved with carvings and letterings. All our granite mausoleums are constructed with the utmost care and highest quality materials to ensure longevity.
